

TALL WALKER

THE NUTCRACKER: The first of our Tall Walker backpack puppets. Its impressive height allows for great visibility in large spaces. The Tall Walker is designed to be transformed and outfitted to support any theme.

FAQS

1. **What are the standard dimensions?** 13 ½' tallx 46"
2. **Can the size be modified?** There is a bowler hat version that is 11 1/2' tall
3. **How do you manage crowded spaces?** The Tall Walkers move very slowly and are able to engage with guests. It is advisable for client to provide escort in the event of tight or crowded spaces.
4. **How long does it take to set up ... and strike?** We request a 45 minute window for build. The strike is done immediately after the event and takes 30 minutes.
5. **How is the Tall Walker transported?** In the U.S. the apparatus can be shipped in a small crate.
6. **How long are the sets?** We prefer to limit the sets to 15 minutes. We can provide nonstop coverage by adding a second puppet master.
7. **Can the Tall Walker be branded with corporate logo(s)?** Branding possible for a nominal fee, email us with the logo and we can send you a proposed rendering.
8. **Can the Puppeteer be provided by purchaser?** No, our "Puppet masters" are trained to operate the apparatus safely.
9. **Are there other models available?** Yes, below are some that we are considering... and as always, we are open to your ideas.
